

# ABOUT THE COVER

**Boneso Livestock**, along with Chad Holtkamp / Holtkamp Cattle, Wade Rodgers / Rodgers Livestock and Chris Rosa / Hunter Brothers, partnered on the bull "Walks on Water" that became a crowd favorite in the yards at Denver in 2010. We were very fortunate and appreciative that some of the best producers from around the country thought enough of our bull that they used Walks on Water to flush and breed to their top cows, and now the first calf reports are coming in — they are very positive. At Boneso Livestock we flushed several of our top Donor Cows to Walks on Water and are very excited with the results as well. All of our Walks on Water calves were born unassisted at a manageable birth weight, with lots of vigor and they hit the ground running.

We think that Walks on Water is a "Changer" and we are very excited about his future in the club calf industry. Semen is available at most major semen distributors and in California can be purchased through Boneso Livestock and Lander Vet Clinic in Turlock, CA.

This year Boneso Livestock will again be selling calves with **Breeders World Online Sales**. We will be having two sales

this year, with the first sale being held on **October 17, 2011**. It will feature our steers that will consist of full sibs to the Reserve Grand Steer at the 2011 New Mexico State Fair, as well as maternal sibs sired by Monopoly and Walks on Water, to mention a few. Our second sale will also be with Breeders World Online Sales on **November 29th, 2011**, and will showcase select females and some select Embryo offerings from our top donor cows bred to the some of the top bulls in the industry. Visit our website at [www.bonesolivestock.com](http://www.bonesolivestock.com) to view calf, donor and bull pictures as well as updates for sales and up-coming events.

*Left: **Monopoly x Lady Lumps** (Donor Cow - Mossy Oak x Double Stuff). Lady Lumps was Reserve Supreme Champion Heifer @ 2006 Western Bonanza & many time Champion Chi Heifer.*
